# Mohammad Ali Amidi

## Frontend Developer

Passionate Frontend Developer skilled in JavaScript and React.js, driven by a passion for crafting exceptional user experiences. Known for meticulous work, collaborative teamwork, and a strong work ethic. Committed to career growth while enhancing the field of frontend development.

## EXPERIENCE

2022 Nov - Present

Aramico | [arami-co.com](https://arami-co.com)

**aramico**  
Amayesh Rah Mihan Co.

### Frontend Developer

I work at Aramico as a web developer. After successfully delivering websites that matched the UI designs, I earned the trust of management, leading to additional responsibilities for designing and supporting websites for subsidiary companies. My role also involves optimizing website performance, ensuring responsive design, and handling tasks to create smooth and user-friendly experiences.

Aug 2020 - Jul 2022

Petro Kimya | [trade-chemical.com](https://trade-chemical.com)

### IT Technician

I began as an IT intern during university and progressed to an IT specialist. During this time, I became interested in web development, working on company websites using WordPress, PHP, MySQL, HTML, CSS, Bootstrap. I also learned Photoshop for design tasks. This experience deepened my passion for programming and motivated me to focus on building more advanced web applications

## PROJECTS

### Flashbaz (Ecommerce)

[mohammadali.pages.dev/projects/flashbaz](https://mohammadali.pages.dev/projects/flashbaz)

Flashbaz is an e-commerce platform that includes comprehensive features such as authentication, product management, and a secure checkout process. Built with a modern MERN stack and Next.js with high performance and scalability.

**Technologies:** TypeScript, Next.js, Redux Toolkit, RTK-Query, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Swiper, Axios

- Dynamic product listings and detail pages
- User authentication and profile management
- Shopping cart and secure checkout functionality
- Admin panel for managing products, orders, and users

### Snapgram (Instagram Clone)

[mohammadali.pages.dev/projects/snapgram](https://mohammadali.pages.dev/projects/snapgram)

Snapgram is an Instagram clone that replicates core social media functionalities including photo sharing, user interactions, and responsive design for mobile and desktop views.

**Technologies:** TypeScript, React, React Router, React-Query, Tailwind, React Hook Form

- Photo sharing with captions and tags
- Like, comment, and save functionality on posts
- Real-time updates using React Query

### Portfolio

[mohammadali.pages.dev](https://mohammadali.pages.dev)

- A responsive and interactive portfolio to showcase my work, skills, and experience. It features a project gallery, a contact form, and smooth transitions for a polished user experience.
- **Technologies:** TypeScript, React, Tailwind CSS, React Hook Form, Swiper
- Github: <https://github.com/mohammadali-amd/portfolio>
